

# Nowe trendy w Informatyce

# Software Engineering

# Nowe trendy w Informatyce

#### Programowanie ekstremalne

- Bliska współpraca kadry menadżerskiej, klienta i programistów
- Krótkie cykle dostarczanie działającej wersji projektu co 2 tyogdnie
- Testy akceptacyjne wyrażają szczegóły dotyczące każdej funkcjonalności
- Programowanie w Parach
- TDD
- Ciągła integracja
- Równe tempo
- Otwarta przestrzeń pracy
- Prosty projekt
- Refaktoryzacja
